

Point Of Sales **for** SAP

WHAT is SAP Customer Checkout?

SAP Customer Checkout covers all common Point Of Sale requirements that you need for a fan shop or retail store.

From sales to discount campaigns, SAP Customer Checkout gives your sales staff all the information they need. Customers can pay in cash, with standard EC and credit cards, or vouchers - either at stationary cash registers or via staff members' hand-held tablet PCs. Special offers like discounts, loyalty cards, and apps are easy to integrate in your point of sale application.

SAP Customer Checkout helps you with:

- > Merchandise sales and returns
- > Cashing up and daily accounts
- > Discount and voucher management
- > Payment with cash, cards, and vouchers
- > Integration of customer orders (down payments, invoices)

Functional Overview
