Project MANAGEMENT OFFICE

ANOTHER BUSINESS COMPETENCE

Our 15 years experience as an integrator enables us to propose our competence at each step of your project, from the pre-sale phase up to the uprunning of our solutions.

We commit towards you on covering the following aspects:

- > Functions to meet the identified needs
- > Technics to stick to defined specifications
- > Deadline to respect the fixed timeline
- > Costs to stay within the allocated budget

We have TWO LEVELS of services:

LEVEL 1

Level 1 service for simple but important projects with our know-how and standard tools (Gantt, Microsoft Excel, Word templates, etc.)

LEVEL 2

Level 2 service for complex projects with our powerful methodology and tools, training also your internal teams.

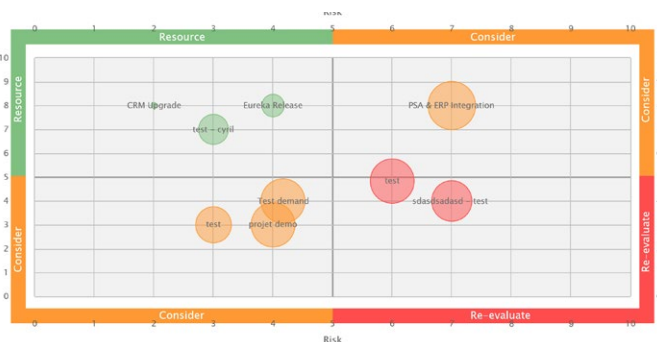

Our PMO solutions:

managing your projects, resources and portfolio with efficiency

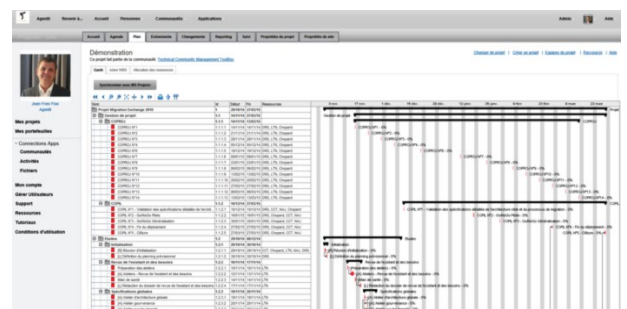

Some project and portfolio management solutions focus on management, others on collaboration. Our PMO dedicated solutions are strongly positioned to provide project management, time repor-

ting, collaboration and integration tools in a design that is easy to use and full of powerful features that help companies get work done.
